**Subject:** Public Records Act Request

Mike,

I wanted to formally request the total cost two-day cost to the city of Anaheim of deploying Anaheim Police officers and law enforcement personnel from surrounding agencies ie the Orange County Sheriff's Department to the Donald Trump and Bernie Sanders Campaign events in the city under the California Public Records Act.

I understand it may take some time for partner agencies to build the city. I would like to request that figure and if there are any initial cost estimates (nothing they could be subject to revision) we would request those as well.

I would note that this request centers on the total costs – initial cost estimates and eventual total -- not specific law enforcement deployment numbers.

Thank you for your time and attention, Andrew.
