November 2009

I. GENERAL

A property within the City of Anaheim has been legally created in conformance with the Subdivision Map Act and the city Subdivision Ordinance (Chapters [17.08](#) and [17.09](#) of the Anaheim Municipal Code) if it is:

1. A lot or parcel created by a recorded Tract Map or Parcel Map.
2. A lot or parcel established by a recorded Lot Line Adjustment.
3. A lot or parcel approved on a recorded Certificate of Compliance.

A Conditional Certificate of Compliance is required:

If a property has been created in violation of the Subdivision Map Act.

The City of Anaheim has the authority (per Section 66499.34 of the Subdivision Map Act) to deny or withhold issuance of any permit or other approval to future develop the property until a Conditional Certificate of Compliance is approved and recorded and the adopted conditions have been complied with.

An Unconditional Certificate of Compliance is required:

If the subject property was not created by a Final Map, Parcel Map, or Lot Line Adjustment, but was lawfully created by a deed recorded prior to March 4, 1972.

II. INITIAL SUBMITTAL

The [initial submittal](#) of a certificate of compliance shall consist of the following:

1. An Application signed by the property owners. All signatures shall be notarized.
2. Three (3) copies of [Legal description](#) for the property labeled as "Exhibit A".
3. Three (3) copies of a [sketch](#) of the property labeled as "Exhibit B" on 8 1/2" x 11" or 8 1/2" x 14" sheet(s), prepared, signed and stamped by a Licensed surveyor or civil engineer authorized to practice land surveying. The plat shall include:
 - a. Map scale and north arrow.
 - b. Label and dimension adjacent street(s). Label and dimension distance to centerline of near cross street.

- c. Bearings and distances for all property lines.
- d. Provide sufficient data such that the legal description in the property deeds can be retraced.
- e. Acreage of each lot.
- f. A statement of whether the plat was prepared based on record data or based on a survey performed for plat preparation
- g. Basis of bearing
- h. Label adjacent lot(s) or parcel(s) in ghost lettering.
4. A title report for the property dated within the last 30 days of submitted date.
5. Traverse sheets, including area calculations.
6. Copy of current deed(s) and deed(s) dated prior to March 4, 1972 for the property. It may be beneficial to obtain a chain of title. Most title insurance companies offer this service.
7. Three (3) hard copies of site plan which shows building structures with all setbacks labeled and dimensioned.
8. A service fee deposit, in the amount approved by the City Council. (See current fee schedule).

III. PLAN CHECKING

Plans will be scheduled for plan checking in the order they are received. The first plan check will be thorough. The plan checker will make technical corrections and determine if the property has been legally created. The first plan check will take approximately 4 weeks. Subsequent reviews will take up to 3 weeks.

If corrections are required, the surveyor or engineer will be notified as soon as the plan check is complete and ready for pickup. The plan check will be returned with a letter listing items to be submitted prior to approval by the City Engineer.

IV. CONDITIONAL CERTIFICATE OF COMPLIANCE

If it is determined that the property was created in violation of the Subdivision Map Act and City Subdivision Ordinance, the City will issue a Conditional Certificate of Compliance. Conditions will be imposed which would have been applicable to the subdivision of property at the time the applicant purchased or acquired the property. However, if the applicant was the owner at the time of violation then the City will impose any conditions, which would be applicable to a current subdivision.

All conditions must be complied with prior to further development of the property.

V. RECORDING

The surveyor will be notified as soon as the certificate of compliance has been approved by the City Engineer. The surveyor shall then record the document in the Office of the Orange County Recorder.
