3-4-5

Jump & Jive

"Jump in and have fun with reading!"

Jump & Jive is a morning storytime for boys and girls who are 3, 4, or 5 years old but who are not yet in kindergarten.

These children are more independent and will actively participate in the singing, call and response, music and movement activities.

Their attention spans are longer now, and so are our programs.

Jump & Jive sessions are usually 30 minutes long and may include an art activity from time to time, since their small-muscle skills and hand-eye coordination are maturing.

This program helps children:

- Develop social skills
- Practice listening acuity
- Master small-muscle coordination
- Explore language and literature
- Develop concept understanding

Here's how you can help your child:

- Bring children who are in good health.
- Come early and get settled.
- Remove children who are disrupting the group; allow them to recover and return at a later date.
- Turn off cell phones and pagers.
- Visit and chat before and after the program only.
- Be willing to participate and assist if asked.
