Date: July 13, 2021

RE: Notice of Bid for Construction of Wells No. 60 and 61
Account No. 502-521-3779-7865-2000908.01

FOR INFORMATION ONLY, the Department of Public Works is advertising for bids to construct groundwater wells at 2035 S. Santa Cruz Street and 1050 E. Stanford Court.

The work to be undertaken consists of construction of two new groundwater wells at the City's Santa Cruz site to supplement the drinking water supply and to account for two existing wells that will be abandoned due to the presence of chemicals called PFAS in the groundwater. These new wells are part of a larger groundwater treatment plant project that will remove PFAS from the wells that can accommodate the treatment. These wells will be constructed by mid-2022 and will be equipped and ready for distribution to customers by the end of 2023.

This project is not covered "Project Work" as defined in the Community Workforce Agreement (CWA). Water well construction is specifically exempt and excluded from the scope of the CWA.

Project Funding Source: This project is budgeted in the Public Utilities Department Fiscal Year 2021/22 Water Capital Improvement Program, and applicable capital costs will be recovered through monthly reimbursements from Orange County Water District (OCWD).

10% bid bond required. Required License Classification: Engineering "A" and "C-57". DIR Certification is required for prime and subcontractors. Liquidated Damages will be Five Hundred Dollars (\$500.00) per day until August 14, 2022, and One Thousand Dollars (\$1,000.00) per day starting August 15, 2022. Liquidated damages are capped at Two Hundred Thousand Dollars (\$200,000.00) total. See Attachment "A" for additional project information.
