C & D WASTE DIVERSION APPLICATION

Materials generated from construction projects must be recycled to meet statutory obligations under various State legislation and California Green Building Codes, which require 65% of all debris to be diverted from the landfill.

To meet reporting obligations, the City of Anaheim requires individuals pulling permits with construction and demolition debris to provide information on where the materials will be taken and the percentage of materials diverted from the landfill.

A Construction & Demolition Waste Diversion Application must be submitted **BEFORE** a permit may be issued. Submit application by email to C&DApplication@anaheim.net

Option A: I shall use construction containers provided by Republic Services, the City's franchise trash hauler, for the removal of C&D debris. Contact Republic Services at (714) 238-3300 to order containers.

Option "A" requires no other action, please submit this page to:
C&DApplication@anaheim.net

Option B: I will NOT be using Republic Services. Removal of construction and demolition debris generated at the project site and material will be transported to a C&D recycling facility, retain all receipts, weight tags or invoices for all loads delivered to a C&D recycling/processing facility. **You are allowed to "self-haul" waste materials providing you utilize company-owned vehicles and company crews to fill the bins.**

Option "B" requires additional information, please complete the next page.

I shall dispose of Construction and Demolition waste as specified above:

Signature: _____ Date: _____

Print Name: _____ Email: _____

Contractor/Owner
Business Name: _____ Permit # BLD _____

Job Address: _____

Contact Phone # _____

C & D WASTE DIVERSION PLAN – OPTION “B” ONLY!

1. Project and Applicant Information

Owner’s Name: _____ Date: _____
 Project Address: _____
 Owner’s Email: _____ Phone: _____
 Contractor’s Contact Name: _____ Phone: _____
 Contractor’s Email: _____

2. Description of Diversion Plan

Briefly state how waste materials will be handled at your job site to ensure 65% (minimum) diversion using salvage/re-use or recycling. Also explain how you will inform your workers/subcontractors of your Waste Management Plan requirements and ensure their participation.

3. Prior to Final Inspection (Please allow two (2) business days)

Prior to final inspection email documentation including all receipts of all recycling and disposal or a report from the recycling contractor identifying the amount of waste recycled and disposed to C&DApplication@anaheim.net. **The Building Inspector will not final your project until documentation has been submitted and approved by the Public Works Department, Operations Division, (714) 765-6802 or at C&DApplication@anaheim.net. Please allow two (2) business days to process.**

I verify that the information reported in this form is accurate to the best of my knowledge:
